Wide-Open Town: A History Of Queer San Francisco To 1965

Synopsis

Wide-Open Town traces the history of gay men and lesbians in San Francisco from the turn of the century, when queer bars emerged in San Francisco's tourist districts, to 1965, when a raid on a drag ball changed the course of queer history. Bringing to life the striking personalities and vibrant milieu that fueled this era, Nan Alamilla Boyd examines the culture that developed around the bar scene and homophile activism. She argues that the communities forged inside bars and taverns functioned politically and, ultimately, offered practical and ideological responses to the policing of San Francisco's queer and transgender communities. Using police and court records, oral histories, tourist literature, and manuscript collections from local and state archives, Nan Alamilla Boyd explains the phenomenal growth of San Francisco as a "wide-open town"; a town where anything goes. She also relates the early history of the gay and lesbian civil rights movement that took place in San Francisco prior to 1965. Wide-Open Town argues that police persecution forged debates about rights and justice that transformed San Francisco's queer communities into the identity-based groups we see today. In its vivid re-creation of bar and drag life, its absorbing portrait of central figures in the communities, and its provocative chronicling of this period in the country's most transgressive city, Wide-Open Town offers a fascinating and lively new chapter of American queer history.

Customer Reviews

Great book and great research. So many interesting facts and bits. As always, some of the best parts are in the footnotes, which are meticulous.

First of all, I was looking for a book written more along the lines of the George Chauncey's, "Gay New York: Gender, Urban Culture, and the Making of the Gay Male World, 1890-1940". This book is well researched and clearly proves that there was a thriving gay culture in San Francisco well before the Stonewall uprising in New York. The idea that San Francisco was able to sustain a gay community based upon its "wide open" ideology and its status as a shipping port and military base also helped further cement this position as a gay bulwark in America. The only problem I had with this book, is that it covers a lot of minutia which makes it somewhat of a laborious read and I found myself skipping ahead. All in all, this is a good book and is priced right for a digital book.

Interesting Book on History of Gay Life in San Francisco

I like the book. it is actually a text book for a class at city college of san francisco. thanks
