# Conducting School-Based Functional Behavioral Assessments, Second Edition: A Practitioner's Guide (Guilford Practical Intervention In The Schools)

## **Synopsis**

Explaining the "whats," "whys," and "how-tos" of functional behavioral assessment, this practical and engaging book is packed with real-world tools and examples. Effective procedures are presented for evaluating challenging behavior in K-12 students, organizing assessment data, and using the results to craft individualized behavior support plans. The authors draw on extensive school-based experience to provide sample reports, decision trees, and reproducible checklists and forms—all in a large-size format with lay-flat binding to facilitate photocopying. Purchasers also get access to a Web page where they can download and print the reproducible materials. This book is in The Guilford Practical Intervention in the Schools Series. *New to This Edition* \*Revised throughout to reflect significant advances in the field. \*Provides an updated conceptual model for understanding behavior. \*Three new chapters cover brief functional analysis, behavior-analytic problem solving, and direct behavioral consultation. \*Fully updated coverage of legal issues under IDEIA. \*Includes revised forms and sample reports.

## **Customer Reviews**

I was being hired to do some psychology work for the elementary school in the area of Special Ed. I liked the book and would recommend it for any Teacher on Assignment, school-based job and psychologists.

I use this book for training purposes. It is a comprehensive overview of the application of FBA in the school setting. Well written with plenty of examples to illustrate concepts. Plenty of tools to use immediately.

This is a great book! It is exactly what you are looking for if you need help with conducting FBA and FAAs within school settings!

I would recommend this book to any student in an ABA course!also the book came really fast and was in fairly good condition, at any rate good price too!Thank you.

I teach graduate level classes in classroom management and completing FBA's and BIP's. This was a great resource and I even used it as a textbook for my students.

Conducting School Based Functional Behavioral Assessments, has gave me a better understanding of the course work required for my educational and career path.

The clearest, most forward guide you can get to conducting good Functional Behavioral Assessments and to writing good Behavioral Intervention Plans.

Also a required text for a course. Much more technical but offers valuable information on how to conduct functional based assessments.
