Kundalini: Kundalini Awakening Mastery, Proven And Fast Working Techniques To Awaken Kundalini Energy Now!

Synopsis

DO YOU WANT TO KNOW HOW YOU CAN AWAKEN YOUR KUNDALINI? Find out with: Kundalini Awakening Mastery, Proven And Fast Working Techniques To Awaken Kundalini Energy Now ! Do you want to know what you do once your Kundalini is awakened? Using this easy to follow book with effective techniques for helping you strengthen your Kundalini Now! For centuries, the force known as Kundalini has been shrouded in mystery, its origins uncertain, but still it continues to govern every aspect of our lives, from the moment we get up until the time we fall asleep at night. Although it may be a dormant energy contained within the majority of people, you can easily awaken it and reap the benefits from Kundalini. Located in these pages is a simple, easy to follow book that will help you to understand, not only the roots of Kundalini, but why it is so beneficial for your day to day use. There are simple, yet effective techniques, for helping you strengthen your Kundalini when it is time for you to awaken this dormant energy; effective strategies for when your Kundalini has been awakened too early; its relationship with other alternative therapies including the ancient Chinese philosophy of Chi; and even what to do when your Kundalini has been activated. In Kundalini Awakening you will learn: What is Kundalini? Why you should try Kundalini? Preparing yourself for the awakening A step by step guide to awakening Kundalini Strategies for when Kundalini emerges too soon The differences between Kundalini and Prana The relationship between Kundalini and Chi The health benefits of Kundalini The downsides and dangers of awakening your Kundalini Kundalini exercises Information on famous Kundalini gurus Inside all of us is the latent energy just waiting to be utilized in order to transform our lives and create a better world. For centuries, this information was carefully guarded away, but now more and more people are ready to take the plunge and create a better lifestyle for themselves. In Kundalini Awakening, you will undergo a journey to help you awaken your own energy for your own physical and spiritual benefit. Customer Reviews

This is the first time that I have read about Kundalini and I must say that this book has explained it really well. It is able to expound on what Kundalini is all about and how one can awaken his own energy. The discussions here are all geared toward a common goal, make the readers learn, understand, do it on his own. I personally appreciate the one about the health perks of Kundalini. This is my reason why I am willing to give this a try. And another topic, Information on famous Kundalini gurus, will also prove useful when one becomes really serious about starting on this endeavor.

This book contains proven steps and strategies on how to awaken the so-called Kundalini that will help you gain enlightenment and improvement through meditation. You might have heard of Kundalini somewhere or you might even have read about it. Well it is pretty much becoming popular as it spreads out through regions of the world. This book is really easy to understand how kundalini works and explained how the chakras works give you the tools to start a better way to take care yourself.

Wow! That was my reaction after reading the book. I have never heard of Kundalini before and now that I have learned about it, I have been more thirsty to know more. I want to awaken the Kundalini inside me and this book made me want to start applying the things I have learned from here. I am happy to learn a new extraordinary information about myself. I hope the author could produce more books about kundalini. I would love to share it to my friends. :)

I bought this book knowing absolutely nothing about Kundalini and after reading this book, I came

out feeling confident in my knowledge of the subject. Everything is discussed, including the origins of Kundalini as well as potential side effects that can happen if you don't properly awaken. As a writer, the thought of having unlimited creativity was definitely appealing but I just don't think I'm ready for a spiritual awakening of this magnitude. It sounds amazing, though. Angie Archer really did a good job of explaining this seemingly complex and intimidating subject in a semi-simple way that people (like me!) who know nothing about it can understand.

In my mind I have so many questions on what is Kundalini like where does it come from, how someone can awaken their kundalini and more. This book had answered my entire question which had helped me a lot to better understand Kundalini and I could also awaken my own kundalini. This book contains proven steps and strategies that can help me awaken my Kundalini and gain enlightenment from this one.

I was pretty intrigued by this Kundalini. I heard it at the office few days ago and they seemed really amazed by it so I gave it a try and bought this book. The book covered the basics and fundamentals of the subject and I was pretty impressed myself. I'm a believer of this kind though so for me, it was a good-to-know kind of book. I would, however, share this to my friends at the office who do. They might find this book interesting.

I wanted to improve my personal energy and decided to purchase this book. I haven't heard about Kundalini in the past, but after reading this book now have understanding what is Kundalini and how it's different from prana. I liked the tips on how Kundalini can improve both health and energy. The book is very engaging and informative. Will read other books by this author.

This book is a fast and easy way to awaken Kundalini energy. The author guides step by step. This book is a complete intro of Kundalini energy and why this is essential for us. There is also given tips and strategies for Kundalini emergence. I read the difference between Kundalini and Prana which is really informative and new for me. The benefits of Kundalini are fantastic and these also attract me to purchase this book. In short this is an awesome book.
