Customer Reviews

This book is changing my life. This is not a easy read. The subject matter is difficult. There is a lot of self evaluation involved. But when your in pain it is worth it. It has been may years I have been having terrible dreams. Waking me up screaming in the might. My sons have discussed whether they should wake me up or not. Several time one of them would wake me up because I just keep screaming. Since I have been studying this book it has helped. At least I do not wake myself up in the night as often as I once did. I hope to end these nightmares. Just a hint they are usually sexual in nature and danger involved.

Worth reading. Volume one is even better.

It gives you good advice on what you are dreaming and to be aware and don't take things lightly.
