Customer Reviews

Renting through this type of very expensive Books is a must, dude, the Book though good is very expensive, not wrth buying, Authors are ABUSING putting newer editions to almost same books to self-profit, that is bad, man, for students and people starting \$\$\$, happily rental Service exists.(Other Options : chek-out this books at Public Library, renew if needed)

This textbook was very helpful in the class I took. It gave clear definitions of the topics being covered without being too wordy and gave multiple examples to further clarify the information.

The book was not in a good condition. The pages were very sticky and some of the pages were twisted.

I rented this book and it came brand new, or if it was used I couldn't tell!

The book had all the information i needed to pass my course. Good book

Prompt delivery. The book is good, but not my favorite of subjects.

My daughter loves this book. A new book for a used book price.

Just what I needed for my class, perfectly fine condition!
