Inventing A Better Mousetrap: 200 Years Of American History In The Amazing World Of Patent Models (Make)

Synopsis

Learn about the role that patent models played in American history--and even learn to build your own replica! Patent models, working models required for US patent filings from 1790 to 1880, offer insight into--and inspiration from--a period of intense technological advancement, the Industrial Revolution. The Rothschild Patent Model Collection consists of thousands of patent models, many from the 19th century. This book features the most outstanding of these patent models, and offers deep insight into the cultural, economic, and political history of the United States. This book not only catalogs hundreds of the most compelling models from the collection, but shows you how to build your own replicas of several selected models using Lego, 3D printing, and other materials and techniques.

Book Information

Age Range: 8 and up

Series: Make

Paperback: 292 pages

Publisher: Maker Media, Inc; 1 edition (November 19, 2015)

Language: English

ISBN-10: 1457187183

ISBN-13: 978-1457187186

Product Dimensions: 9.5 x 0.6 x 9.5 inches

Shipping Weight: 12.6 ounces (View shipping rates and policies)

Average Customer Review: 4.8 out of 5 stars [See all reviews](#) (25 customer reviews)

Customer Reviews

You Don't Have to Be a Genius "One of the most important things that I learned in compiling the Patent Model Collection and writing the book is that you don't have to be a genius to be an inventor," says author Alan Rothschild. "Yes, it is certainly true that many inventors have had extraordinary minds, but the vast majority of inventors have been ordinary, everyday people. They have figured out how to build a better mousetrap; for a new or improved idea they dreamed up. "I would encourage anyone who reads this book to be always thinking: Is there a

better way to do something? Then work to bring that idea to fruition. The future and success of our country is in the hands of our creative, inventive, and entrepreneurial individuals who are willing to think out of the box!" Make Updated Versions of Old Models 3D print an electromagnetic motor Use a laser cutter to make a Reversible Lounge Construct a better mousetrap! Use a CNC to build a Pigeon Starter Construct a Lego rowboat Build a miniature washing machine
