# Hematopoietic Stem Cell Transplantation (Contemporary Hematology)

## Synopsis

Remarkable developments in the field of transplantation have created opportunities to address the formidable challenges of transplantation across histocompatibility barriers, stem cell expansion, and prevention of complications and generation of graft-vs-tumor activity to eradicate residual disease. Stem Cell Transplantation for Hematologic and Other Disorders, Second Edition provides a glimpse into potential future applications of bone marrow derived stem cells in the field of cardiac repair. The updated chapters introduce the biologic underpinnings of hematopoietic cell transplantation, basic stem cell biology, immunobiology, and histocompatibility, with emphasis on indications and results of transplantation for specific diseases. Written by experts in the field, Stem Cell Transplantation for Hematologic Disorders, Second Edition provides seasoned professionals with a complete understanding of the current state of transplantation biology as well as a clear vision into the future.

## Book Information

Series: Contemporary Hematology

Hardcover: 736 pages

Publisher: Humana Press; 2nd ed. 2008 edition (November 17, 2008)

Language: English

ISBN-10: 1934115053

ISBN-13: 978-1934115053

Product Dimensions: 7.2 x 1.3 x 10.1 inches

Shipping Weight: 3.8 pounds (View shipping rates and policies)
